Program policies are established to encourage consistent ethical behavior among students and to protect the academic integrity of the University. All students participating in the Summer Scholars Program are expected to conduct themselves accordingly and will be held responsible for violations to the policies.

If a student's behavior is deemed to negatively impact the community or if University or program policies are violated, parents will be contacted and the student disciplined accordingly; including dismissal from the program at the parents/guardians expense – program tuition and fees will not be refunded and academic

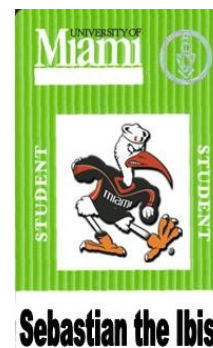

credit will not be awarded. University and program policies have been created to ensure student safety and well-being.

Student Visa – Summer Scholars Credit Program

All non-US citizens and non-US residents enrolled in the Summer Scholars Credit Program are required to hold an F-1 Student Visa. Students in this program are in a full-time course of study earning academic credit, therefore they are required to obtain the F-1 Student Visa. Please note, students must be in the correct immigration status and hold the correct visa.

The Summer Scholars Program Office will provide eligible students with the Form I-20. Students are responsible for scheduling a visa interview appointment online at their local U.S. Consulate. Please plan ahead and book your appointment several weeks in advance, as this can be a lengthy process; U.S. Consulates manage a high volume of applicants for the summer travel season.
